UNIVERSITY RUMPU.

The State of Affairs do Not Improve in the Least.

THE WELFARE OF THE INSTITUTION

Seriously Jeopardized by the Complications in the Faculty—A Sentiment Among Students and Friends of the University That a Thorough Cleaning-out and Reorganization is the Only Remedy—Testimony Against Prof. Ogden—Quarrels Among Professors Must Stop if all Have to go.

Special Dispatch to the Intelligencer.

MORGANTOWN, W. Va., June 22.—Conversation and conjectures about what the board of regents will do when it meets here in July do not very rapidly abate.

Dr. Turner is getting ready to substantiate the charges made by him against Prof. Ogden and the taking of depositions is almost a daily occurrence. These are mostly from students who will be away from home when the board meets, and who have heard expressions of opinion and remarks from Prof. Ogden that go to prove the charges made by Dr. Turner. A great deal of testimony has already been received and more will be ready by the time the board meets. If this is accepted in any degree by the board, Prof. Ogden will, in all probability, not be connected with the institution next year. If the board takes no action at this crisis it will show conclusively, as has been suggested, that they lack executive backbone. Things have gone on to such an extent that the people around here, who are acquainted with the status of affairs, and most of the students are very much dissatisfied, if not disgusted. To have a continual war among the profession is bad enough if it would affect only themselves, but when it affects the cause of every student who has a case to present to the faculty it is much more dissatisfying. That such is the case can be proven. Opposite sides have in nearly every case been taken by different members, regardless of right or justice. No longer ago than this year a young man of merit and ability was kept from graduation by the insatiable desire of difference in what cause.

A member of the board says that, although a friend of Dr. Turner, he will vote against him in order to have the trouble settled. The removal of Dr. Turner alone will by no manner of means settle the dissensions. Other members of the faculty are as much at variance as Dr. Turner and any member of members.

Dr. Turner is not being discussed on his own merits with a view to filling his place with a better man. All the opposition against him is the outgrowth of local opposition caused by personal enmity. His removal will leave the remainder of the faculty as much at variance as ever, and a new executive will find as much difficulty in getting along as Dr. Turner has had. No specific charges can be brought against him in connection with his work in the institution. Such charges can be brought and supported in the case of other members of the faculty, and till they are disposed of harmony cannot exist. With this exception the institution here is on a fair road to success. The recent completion of a mechanical building with all modern appliances and the best of machinery, the new scientific building which will be ready for use the first of next school year, and which has large chemical and physical laboratories, the recent completion of a large new commencement hall and a splendid gymnasium, all furnish accommodations for a much larger number of students than has ever been enrolled. All this will amount to nothing till a faculty is furnished which is composed of individuals who will each take care of his own department, be solicitous for the welfare, but not meddle with the management of other departments. The people around here expect the regents to make changes looking more to this end.

STANFORD'S WEALTH.

The Late Senator Left \$35,000,000, After Giving Away Many Millions.

SAN FRANCISCO, CAL., June 22.—A careful estimate of the late Senator Stanford's property indicates that the value is somewhere in the neighborhood of \$35,000,000.

The estate consists in large part of one-fourth share in the Pacific Improvement Company, the legal association through which Stanford, Huntington, Hopkins, Squires and Crocker own and control the Southern Pacific Company. Its nominal assets in the way of railroad property amount to two hundred and ten million dollars, but the actual value is about \$20 per share, or \$42,000,000, of which Stanford's holdings are worth \$10,000,000. Besides this the Pacific Improvement Company owns a large block of Southern Pacific bonds on which the interest is 5 and 6 per cent annually. Stanford's share of these bonds is said to be \$14,000,000. From the stocks and bonds alone the Stanford estate is said to receive an income of nearly one million dollars annually. Then there is the San Francisco cable property that pays five per cent annually on \$12,000,000, of which Stanford's share is \$3,000,000. He leaves one hundred thousand acres of land including the great vineyard, the Palo Alto property, the stock farm and other real estate worth six millions, and other personal property worth one million, making an aggregate value of the estate \$35,000,000, of which there is an annual income of perhaps \$3,000,000.

THREE GOOD FIGHTS.

Reynolds, Vernon and Daly all knocked out—The Houts at the Coney Island Club, Coney Island Athletic Club House, Coney Island, N. Y., June 22.—The three crack bouts scheduled to take place before the Coney Island Athletic Club to-night proved a very attractive drawing card for that organization. Mike Leonard was favorite over George Reynolds, Billy Ernst, of Brooklyn, and Billy Vernon, the Haverstraw brickmaker, had equal admirers. Jim

Daly, the former sparring partner of Jim Corbett, had, of course, a large following, but Joe Butler, from Philadelphia, had good backing.

Leonard was the stronger in the ninth, and after opening up a big gash in Reynolds' cheek, pounded him about the ring until he had him out.

The men had scarcely left the ring when Billy Vernon and Billy Ernst appeared upon the stage.

This was a purely scientific contest, no rushing or mixing things up. Both men were quick as cats. A lead invariably got a return counter, and three rounds were fought with both men smiling and the fight anybody's.

In the eighth and last round Ernst went at his man in a determined manner. He showered right-handers upon Vernon until he knocked him out, and he had to be carried from the ring.

The final bout of the evening between Jim Daly, of Buffalo, and Joe Butler, of Philadelphia, was put on at 10:30 p. m. It was to twenty rounds or more for \$2,500. In the fifth round Daly was knocked down seven times more in rapid succession before he was put out, each time growing weaker and weaker. The time of the last round was two minutes and ten seconds.

THE NEW LIBERTY BELL.

It is Cast at Troy—Composed of Precious Treasures—The Inscriptions on it.

TROY, N. Y., June 22.—At 8:15 this evening Miss Eugenia P. Menoely, daughter of Clinton H. Menoely, let loose a flood of metal at her father's foundry which, when cool, will be the liberty bell of this century. And the molten mass that flowed at her command was composed of patriotic material, implements of warfare, material of the most historic interest; swords that have been used in battles metal identified with every progress of invention and science, remembrances and love gifts.

It was originally intended that Mrs. Cleveland would touch a button at Gray Gables, whereby an electrical apparatus at the foundry would be set in motion, releasing the metal from the furnace; but Mrs. Cleveland was in poor health, and could not venture out in the stormy northeast gale which prevailed at Buzzard's bay.

When the flow was stopped Mr. Menoely announced that the bell was cast.

When uncovered it will be found to contain these words about the mouth: "Proclaim liberty throughout the land unto all the inhabitants thereof."

Around the crown of the bell will be the inscription:

"Glory to God in the Highest, and on earth peace, good will towards men."

On the face of the bell will be the words:

"A new command I give unto you, that ye love one another."

On the opposite face will appear the words:

"Clinton H. Menoely. Bell Foundry, Troy, N. Y."

NATIONAL BOARD OF HEALTH.

Its Establishment one of the First Things to be Brought Before Congress.

WASHINGTON, D. C., June 22.—One of the first matters of importance that will be presented to the next Congress will be a bill, already framed, providing for the establishment of a national board of health, with headquarters in this city. The board, as devised by the projectors, is to co-operate with the state and municipal authorities in the matter of sanitary improvements, to be presided over by a physician whose tenure shall only be terminated by death, misdemeanor or inefficiency. Its executive committee will be chosen by the President of the United States from the state and territorial representatives, and in addition is to have as members the surgeons general of the army, navy and marine hospital service.

The body of the national board is to consist of a representative of the medical profession of each state and territory, appointed by the President on account of his special fitness for the duties of his position, and for a term of not less than six years. This national board is to meet in this city not oftener than once in two years, unless specially convened in some great emergency. The boldest feature of the proposition, and the one most likely to result in serious controversy, is that which bestows upon the board legislative, judicial and executive powers of an independent character.

Base Ball Games Yesterday.

Cincinnati—Cincinnati 0; Chicago 3. Cincinnati—Cleveland 3; Pittsburgh 1. Philadelphia, Pa.—Philadelphia 12; New York 5. Brooklyn, N. Y.—Brooklyn 3; Washington 6. St. Louis, Mo.—St. Louis 0; Louisville 1.

CONDENSED TELEGRAMS.

William D. McCoy, of Indiana, United States minister to Liberia, died May 14. The report has just reached this country.

A mob of Socialists took possession of the town of Andricion, Austrian Galicia and looted houses and shops. The police dispersed them with difficulty.

Hon. E. J. Phelps, of counsel for the United States, opened his argument yesterday before the Berlin Sea arbitration tribunal. His address was a brilliant one.

Yesterday practically marked the beginning of the excursion season at the World's Fair. The trains are pouring thousands of people into the city from distant cities.

The Kansas miners strike has reached no settlement. It is thought the employers will fill the strikers' places with negroes, in which event there will be trouble.

A writ of habeas corpus has been asked for by Dr. Graves, the alleged poisoner of Mrs. Barnaby, awaiting a new trial, on the ground that two terms of court have passed since his imprisonment without his being tried.

Another fruitless conference of iron manufacturers and amalgamated workers to arrange a scale of wages was held. The manufacturers insist upon a reduction of \$1 per ton in the boiling rate, and a 20 per cent. reduction in the finishing departments. Some of the amalgamated members favor a concession of 50 cents per ton in the boiling price.

Mr. O. U. A. M. officers were elected: National councilor, H. A. Kibbie, of New Jersey; national vice councilor, J. G. A. Richter, of Ohio; national treasurer, J. Adam Sahl, of Maryland. The candidates for the next session of the state council were Ashville, N. C., Omaha, Neb., Cincinnati, Ohio, and Wheeling, W. Va. Ashville was selected as the next place of meeting.

TWENTY KILLED.

A Terrible Cyclone in Kansas—An Entire Family Wiped out—Awful Devastation in the Storm's Path.

PERRY, KAN., June 22.—The most destructive and death dealing cyclone that ever visited eastern Kansas passed through Williamstown and the surrounding country in Jefferson county last night. It traveled southeast and took in a scope of country half a mile wide and about six miles long. Not a house, barn or tree was left standing in its path. It was accompanied by a terrible rain storm and midnight darkness. Eleven dead bodies have so far been discovered and it is known that at least five more were killed. The dead are:

EVANS, L. F. EVANS, EMERY. HUTCHINSON, MRS. JOHN. KIRKAIDE, SAMUEL. KIRKAIDE, CLARA. KIRKAIDE, SADIE. KIRKAIDE, WALTER. KIRKAIDE, EVA. KIRKAIDE, WILLIAM. STEWART, SAMUEL.

Their bodies are all horribly mangled. Mrs. Hutchinson's arms and limbs were found in a tree a mile from the house. Eva Kirkaide's head was severed from her body. Three persons are known to be fatally injured and many others are seriously hurt. Complete detail cannot be obtained, but it is probable that at least twenty persons have been killed and thirty houses blown down.

DESTRUCTIVE STORM.

Duck Creek Valley Flooded—Heavy Rain Over in Ohio.

Special Dispatch to the Intelligencer.

CALDWELL, O., June 22.—Probably the most terrific rain, hail, electrical and wind storm that has visited the Duck Creek valley in many years past visited this community to-day. For almost two hours the rain poured down in torrents. Duck Creek soon overflowed its banks completely inundating the bottom lands and doing universal damage to the wheat, corn and oats crops. Several bridges between this place and Saraville on the Belair, Zanesville & Cincinnati railroad were either washed entirely away or so badly damaged as to render them unsafe. The same state of affairs also exists west of here, and as a result no trains have been run on that road since noon. It is thought much damage has been done in other sections of Noble county, but no particulars can be obtained at this hour.

Destructive Storm in Missouri.

St. JOSEPH, Mo., June 22.—A destructive cyclone passed just south of this city yesterday afternoon.

At Lake Contrary, a summer resort, four miles south a section of timber was blown down, several houses destroyed and the growing crops badly damaged. The cyclone struck the grounds of the Lake Park Driving Association, tore down and carried away the grand stand and nearly all the stables. Dispatches received from points north of this city reported a fearful storm in Polk, Nodaway and Atchison counties.

Cyclone in Iowa.

DES MOINES, IA., June 22.—A cyclone passed through Adair county southwest of here last night and devastated a strip a quarter of a mile wide. A large number of farm houses were destroyed, but no fatalities are reported.

SHELDON & CO. SUSPEND.

The Big Coffee and Tea Merchants Fail. Financial Circle Surprised.

NEW YORK, June 22.—Henry Sheldon & Co., coffee and tea merchants and dealers, failed this afternoon. The law firm of Taylor & Parker has been put in charge of the house and will endeavor as soon as possible to settle with the many creditors. The announcement of the failure caused great surprise in financial circles, for the firm is one of the best known down town and did a large business.

At the office of Lawyers Taylor and Parker it was said that Sheldon & Co. had decided to suspend in preference to making any formal assignment.

"The firm will have to close up its business," said one of the lawyers in the office. "We have not an exact idea just yet as to the value of the assets, but they will run up to a considerable sum."

"The liabilities will amount to \$200,000 at least. The cause of the failure was not speculation in the coffee market, for the Sheldons always refrained from speculating."

"It is all due to the stringency in the money market. Like a good many other business houses they felt the need of more ready cash than was available."

"The firm will not continue business in all probability but will endeavor to realize on the assets sufficiently to pay a reasonable percentage to all the creditors. They are highly rated in the commercial agencies, and the resources are between \$200,000 and \$300,000."

Uncertainty in Banking Circles.

NEW YORK, June 22.—The amount of clearing house certificates issued to-day was \$2,350,000. This brings the total up to \$4,000,000 since it was decided to issue the certificates.

A feeling of uneasiness still prevails in bank circles on account of the western and Pacific coast bank troubles. All day banks and private banking houses here were receiving bad news from California, particularly Los Angeles, together with a demand for currency. Bankers do not as a rule place much reliance on the heralded return of gold from Europe. The half million on its way here is regarded as a mere drop in the bucket.

Cannot Meet Contracts.

NEW YORK, June 22.—D. McD. White, of the consolidated steel exchange, has announced his inability to meet contracts.

Contractors Assign.

BOSTON, MASS., June 22.—Crosby & Noyes, contractors and builders, and B. C. Noyes & Co., furniture manufacturers, have made an assignment.

National Bank Closed.

GREENVILLE, MICH., June 22.—The City National Bank, of this city, was closed this morning by order of Bank Examiner Caldwell.

Minister Gusman Reopened.

MADEIRA, NICARAGUA, June 22.—Official letters recalling Minister Gusman from Washington have been signed and sealed and forwarded by steamer via California.

THE WORLD'S FAIR.

A Perfect Day Brings Out Many Thousands of People.

GOVERNOR MCKINLEY ARRIVES

And is Tendered an Enthusiastic Ovation—Greeted by Thousands at the Ohio State Building—The Mexican Exhibit Thrown Open—Excursion Trains Begin to Arrive—The Day Cool and Pleasant and Fans and Umbrellas Cast Aside—The Attendance.

The Associated Press Daily World's Fair Special.

WORLD'S FAIR GROUNDS, June 22.—There was a decided change in the weather at the World's Fair last night. Yesterday it was almost unbearably hot, while to-day it is bright and cool, and there was a stiff breeze blowing from the lake. It produced a cheerful effect on the visitors, and they began to come as soon as the gates were opened. Umbrellas and fans were cast aside, and everybody appeared to enjoy the fresh, invigorating air.

The steady increase of strangers at the fair is becoming more noticeable each day, and the daily attendance is

ENTRANCE TO RECEPTION ROOM IN WEST VIRGINIA BUILDING.

growing at a rate that convinces the exposition officials that the enterprise is destined to be a financial success. The total attendance of yesterday was equal to that of the second week, and it is believed that the total for this week will be as great as the total for the month of May. Excursion trains are beginning to run to the fair from cities at a distance from Chicago, and the big summer hotels built especially for World's Fair visitors in the vicinity of the grounds are fast filling up.

The Mexican exhibit was thrown open to the public. People swarmed into the enclosure where the display is arranged and admired the peculiar work done by women of Mexico. The work was collected by the wife of President Diaz, of Mexico.

Visitors were attracted particularly to-day to the display of the national dress of Mexicans.

Gov. Wm. McKinley, jr., of Ohio, was tendered an informal reception at the Ohio state building to-day by the state's commissioners and citizens of the Buckeye state who are attending the fair. Gov. McKinley arrived in the city on a

STAIRWAY IN WEST VIRGINIA BUILDING.

special train from Columbus and was met by Commissioners Setton Cummings and Ryan, of the entertainment committee who escorted him to the grounds.

Commissioners Anderson, Albertson, Paul Holden, Jones and Ritchie met the party at the entrance to the building, and in a few appropriate words the governor was welcomed by Gen. Anderson. A large number of people were attempting to gain admission, and as soon as the doors were thrown open there was a general rush to shake hands with Ohio's distinguished governor. Those who attended the reception were not all Ohioans by any means, although citizens of Ohio to the number of 1,000 were present, many coming here from Cincinnati to attend the musical festival.

The doors of the building were thrown open and for an hour a solid stream of humanity crowded through and shook hands with the governor. Governor McKinley said:

"MY KELLOW CITIZENS OF THE UNITED STATES—I am glad to meet and greet you. I undertook to shake hands with all of you, but after an hour they told me there was a million more, and that I must stop. I have come to your call, and I cannot tell you how much I appreciate, and how much the state of Ohio will appreciate the honor you have shown to her governor. I have come to the fair, not to make speeches, but to see the great object lessons taught by a century's progression. I am glad not only to see the people of this country, but of all nations attending this great international exposition. I want to see all of the people who can visit the fair, for it is a sight the equal of which, has never been seen under the sun."

There were loud cheers after the speaker concluded, and then some more enthusiastic than others greeted him as the next President. He was next shown

through the building. When he reached the department which has for its object the promotion of trade with Latin American countries, E. E. Schwarzkopf, who is in charge, addressed the governor and said that in no former exposition have American products and industries been so creditably represented and never have our people had a better opportunity to compare their products with the cheap labor products of Europe, and he thought the American people have a right to feel proud of such comparisons.

MORE TIMBER MEN CAUGHT.

In Southern West Virginia by the Failure of Crane & Company.

HUNTINGTON, W. VA., June 22.—The announcement that the firm of O. Crane & Co., of Cincinnati, has assigned, caused a great deal of comment here to-day. The firm did considerable business in this region in the way of buying timber, and have a great many logs in the streams in this vicinity. To-night attachment suits were filed and officers have been hunting their property and levying on it all evening. Officers were also dispatched to Logan and Wyoming counties, where the firm has timber. The attachments aggregate \$100,000. Attachments were sent up the Big Sandy river this morning against the firm.

TERRIBLE EXPLOSION.

Four Miners Killed in a Shaft at Wilkes-Barre.

WILKESBARRE, PA., June 22.—At a late hour this evening while eight men were at work at Nanticoke, in No. 6 of the Susquehanna Coal Company, a terrific explosion of gas took place which hurled the victims off their feet and scattered them in all directions, killing four men and a boy instantly and seriously, but not fatally, injuring three more. The dead are: Abram Walker, Frank Bennick (fourteen years of age), John Smith, Wm. Short and a Poleander whose name could not be learned.

THROUGH MUD AND RAIN.

Hill Wylie, the Long-Distance Bicycle Racer, Arrives.

Thirty hours behind time, covered with the mud of eighty-eight miles of the national pike, the record-breaking bicycle tourist, Hill Wylie, arrived in the city last evening at 8:30 o'clock. He lost nearly twenty-four hours in Maryland on account of the bull-headed action of the Chesapeake canal authorities, who refused to allow him to ride on the towpath. He was thus compelled to wheel some and walk the greater part of the very rough roads of that very wild region. From Cumberland on over the Alleghenies he made very nearly schedule time, and arrived at a farmhouse twenty miles east of Uniontown Wednesday night. Starting early yesterday morning, before breakfast, he rode into Uniontown, reaching that point at 7 o'clock. He did not linger there long, but proceeded on his long journey westward. He arrived at Washington about noon, but in the afternoon he encountered both rain and muddy roads. Taking everything into consideration, Wylie's ride yesterday of eighty-eight miles is a remarkable one.

An INTELLIGENCER reporter saw him soon after his arrival here last evening and asked what he thought of his prospects of getting into Chicago on schedule time, next Monday evening. Wylie replied that he thought he would do this, as he had already gone over the worst roads on his route. He said he would start out again this morning at 3 o'clock, and would ride probably 125 miles to Columbia. To reach the Windy City within the ten days he will have to do at least 125 miles each day.

Wylie's arrival in the city has been awaited with interest by the wheelmen and the people generally, and when he rode up in front of the Van Keuren last evening there were probably fifty people waiting, and this crowd soon increased to over a hundred. The tourist, after taking a bath and refreshments, retired for the night, so as to recuperate as much as possible for his early start this morning.

Wylie is riding a 28-pound Stirling safety, with racing pneumatic tires, which so far has stood up all right under the hard usage to which it has been subjected on the race. He is being coached in the ride by Mr. L. A. Howell, of the Lincoln Cycle Club, of Chicago, who is also interested in the Stirling wheel.

A SPLENDID AFFAIR.

In the Country Last Night in Honor of Mr. and Mrs. Lewis Steenrod.

One of the most delightful of the many social affairs of this season was the pink tea given last evening by Mr. and Mrs. Plattoff Zane, at their charming house at Mt. de Chantal, in honor of Mr. and Mrs. Lewis Steenrod. The intention was to have the dinner served out of doors on the beautiful lawn that surrounds the house. But inclement weather during the afternoon made this impossible, and it was necessary to prepare for an indoor affair. The parlors and hall were tastefully decorated with plants and the tables were covered with choice flowers.

The tea began at 7 o'clock and consisted of eight courses, and it was one of the most pleasing and best arranged ever given in Wheeling. At 10 o'clock the guests repaired to the parlors, where they chatted and danced until nearly midnight to the merry music of Killmeyer. About thirty were present, and a more enjoyable evening could not be imagined.

Banner Presentation Last Evening.

Last evening in the school hall at St. Alphonsus church there was an interesting ceremony, the ladies of the church presenting to the St. Alphonsus society a beautiful banner, which they recently bought in Europe for the purpose. On Sunday the society and others will turn out to escort Bishop Kain from the church of the Immaculate Conception to St. Alphonsus church. The bishop will confirm a class in the former church in the forenoon and another in St. Alphonsus in the afternoon.

Escaped from the Pen.

At an early hour yesterday morning Charles Harrington, from Berkeley county, a prisoner in the Moundsville penitentiary, left the hospital, where he was put to nurse a fever patient, scaled the wall with a ladder, and has not since been seen. He was a "trusty," having but two years to serve.

ANOTHER SCANDAL.

Aired in the French Chamber of Deputies Yesterday.

THE GRAVE CHARGES OF BRIBERY

Of French Statesmen by the English Government Contained in Papers Alleged to Have Been Stolen From the British Embassy—Milleroye Attempts to Read Them Amid Exclamations—The Chamber Votes That the Documents are Bogus—The Fight Against Clemenceau Continues.

PARIS, June 22.—Dr. Charcot and Dr. Brouardel, the eminent French physicians, who were sent to Bournemouth, England, to ascertain the exact condition of Cornelius Herz, whose extradition of Great Britain because of his connection with the Panama Canal scandal, have made a report, which agrees with the statements of the English physicians to the effect that the condition of M. Herz is such that his extradition is an impossibility.

The facts were noted in the chamber of deputies to-day.

M. Milleroye asked several questions concerning the extradition of M. Herz, and the documents alleged to have been stolen from a strong box at the British embassy.

With regard to the Herz matter M. Dupuy replied that England had done everything possible for her to do to grant the extradition as requested by France. As for the stolen documents, M. Dupuy stated that the public prosecutor could take no knowledge from stolen documents.

M. Milleroye then stated that he had the text of several of the documents in respect of negotiations with Mr. Austin Lee, second secretary of the British embassy in Paris, all of which bore the date of April 2, 1893. M. Milleroye started in to read one of the documents. He got as far as "I saw to-day Clemenceau," when M. Deville interrupted him and begged the president of the chamber to consider the matter an international question.

M. Milleroye further accused M. Clemenceau of delivering to England private letters that had passed between M. Ribot, lately prime minister and minister of foreign affairs, and the French minister to Egypt, and between M. Ribot and the French ambassador at Constantinople. He produced a list of names of the persons and papers whom he alleged England had bribed and the amount of money given as bribes. He read amid uproar, that almost drowned his voice:

"Temps, 50,000 francs; Le Matin, 30,000 francs; Le Jour, 15,000 francs; Rochefort, 80,000 francs; Clemenceau, 50,000 francs."

At this point the uproar and confusion in the chamber became tremendous. The members of the extreme left rose from their seats and demands were made that M. Milleroye leave the chamber. M. Ribot, however, stood his ground and when a semblance of order and quiet was restored he shouted: "The whole thing is a scandal. Bardeau received 50,000 francs."

M. Bardeau sprang from his seat and exclaimed, "I expect the chamber to vindicate my honor."

M. Clemenceau and all the members of the party of the extreme left again rose from their seats and hooted. After a time they insisted that the rest of the paper be read.

M. Milleroye again started to read, but M. Deroulede, who is also a Boulangist, stated that he could not listen to him and would resign his seat rather than do so.

The order of the day was then moved to the effect that the chamber condemn the documents as spurious, and regrets the time that had been foolishly wasted listening to this presentation. This was adopted by a practically unanimous vote, only four members voting against it, while 489 voted in favor of it.

M. Deroulede retired to a committee room, where he spent a lengthy period, refusing to receive his most intimate colleagues.

M. Milleroye left the chamber, declaring that he would resign his seat in order that he might act independently.

ELKS' GRAND LODGE.

Apapley Elected Grand Exalted Ruler—Allen O. Myers Re-elected Secretary.

DETROIT, MICH., June 22.—At the morning session of the Elks' Grand Lodge time was taken up with the consideration of changes in the by-laws. Several new ones were adopted. An hour or more was then given up to the report of the committee on grievances. After some twenty Elks, whose names had been dropped from the rolls, were reinstated, balloting for officers for the ensuing year began. Ashley Apapley, of Louisville, Ky., was selected grand exalted ruler by a vote of 110 to 89 for Percy Williams, of Brooklyn. Then the fight over the secretaryship began. Besides Allen O. Myers, the present incumbent, John W. White, of Chicago; Al Fleming, of Buffalo; Peter Rush, of Detroit; and James H. Cook, of Indianapolis, were candidates. White, Fleming and Cook withdrew in behalf of Rush, and the balloting commenced. The ballot resulted in the re-election of Allen O. Myers by a vote of 103. Peter Rush received 88 votes.

The place and time for the meeting next year has not been decided on, this matter having been left in the hands of the grand trustees for their decision. A large number of visiting members took in the excursion to St. Clair Falls to-day. The grand lodge adjourned sine die, at 7:30 this p. m. The Wheeling boys leave on the boat to-night for home.

The Car's Thanks.

ST. PETERSBURG, June 22.—The czar has officially thanked the commissioners who negotiated the extradition treaty between Russia and the United States.

Weather Forecast for To-day.

For West Virginia, Western Pennsylvania and Ohio fair; warmer; west to north winds.

THE TEMPERATURE YESTERDAY.

As furnished by C. SCHNEPP, druggist, corner Market and Fourteenth streets.

7 a. m. 77 7 p. m. 76
9 a. m. 82 10 p
